Line Producer

Production Coordinator

I'm a multitasking professional specialized in production, looking for new career opportunities in the entertainment industry.

I have more than four years experience in animation studios and I'm graduated in cinema and media communication engineering.

I'm from Italy, moving from one country to another. I'm an enthusiastic person, I like learning new things and testing myself everyday.

I'd like to work in an international dynamic environment and grow professionally.

Creative but organized, I have a lot of passions and I'm used to dedicate my best efforts to projects.
