Subject: Recommendation letter

I'm glad to write this letter of recommendation for Ambra Malanca.

I can state with confidence that she is a motivated and responsible person with different skills.

She started an internship in our company in 2011, where she immediately demonstrated a great interest and dedication to the field of 3D, and I expect her to have a bright future in CG animation.

After her graduation in cinema and media engineering we hired her in 2012 for a three years contract as a line producer and production assistant and she became an effective and integral part of our team.

In this role, she had responsibilities on different kind of projects, and she handled them with passion. She showed her communication skills with both our clients and the other members of the staff, and also due to her dedication and attention to details we were able to complete in time all the projects.

During these years working with us she has displayed a strong fluency in learning and deepening new tasks, good organizational and the ability to work well with teams. Ambra takes the initiative to identify problems and devise solutions and she is not afraid to get involved in new and unknown challenges.

I therefore recommend her to this position. I sincerely hope that you give her application favorable consideration.

If you need any further information about Ambra, we are at your disposal.

Best regards

Massimo Carrier Ragazzi  
CEO - Executive producer
